Star Trek Online

The Star Trek universe will appear for the first time on a truly massive scale. In this massively multiplayer online game from Cryptic Studios, players can pioneer their own destiny as Captain of a Federation starship. Or, they can become a Klingon Warlord and expand the Empire to the far reaches of the galaxy.

Players will have the opportunity to visit iconic locations from the popular Star Trek fiction, reach out to unexplored star systems, and make contact with new alien species. With Episode Missions, every moment spent playing Star Trek Online will feel like a new Star Trek episode in which you are the star. Immerse yourself in the future of the Trek universe as it moves into the 25th century: a time of shifting alliances and new discoveries.

Adventure in the Final Frontier

Explore strange new worlds and seek out new life and new civilizations in a vast, expanding universe. Establish contact with new races, discover resources and uncover mysteries that will influence Star Trek's future.

You Are the Captain

Missions will take you and your friends into the depths of space, across exotic planets, and even inside starships! When you're in space, you direct the action - be it in the middle of a high-tension battle, where you can maneuver in 3-D space and fire a vast array of weaponry at your enemies, or as you enter warp to explore parts of the galaxy never before documented. On the ground, you lead your away team across exciting

Total Customization

Using Cryptic's Total Customization technology, every ship you command can be customized by you, from its color to its construction. Your ship will retain a Star Trek "feel," but it will also represent your style. What's more, anyone can create their own species in Star Trek Online, meaning you can tell your own story about how you came to be in the galaxy. Leave your mark on the Star Trek universe!

ON THE STORM FRONT

THE OFFICIAL PUBLICATION OF THE USS STORM, REGION 7

Welcome from the Captains chair.

The USS Storm is moving slowly along, but not for lack of trying, record snowstorms have hampered most efforts to have a meeting, but we hope to set one up for this coming March. Our website, which is under construction, is at www.starfleetmarines.com, you can also find us on Facebook. With any luck we will be able to start having Atlantic City area events to promote STARFLEET and get more members into our group, on a sad note, USS Storm member Theresa Trees lost her Grandmother over the weekend, our prayers go out to here and her family, you can contact her at poolshooter69@comcast.net. I would like to congratulate MGEN Larry Neigut for getting a grade of DISTINCTION for SIM-121 - Where Eagles Dare from the School of IOIE - Intel in Movies (SIM) completed on Feb 18, 2010.
